- Personal Experience
PROJECTS

Job Web Application (MERN Stack)

- Full-stack job posting platform with user authentication, job search, and CRUD operations.
- Admin dashboard for managing users and job postings.
- MongoDB for storage, Express/Node for backend, and React for frontend.

Live Code Editor with Chat

- Live code editor developed using React, Node.js, and Socket.io.
- Users can write code synchronously and chat in real time.
- Custom spaces, syntax highlighting, and WebSocket-based collaboration have been implemented.

University Administration System

- Developed using PHP and MySQL.
- Administrators can manage student data, attendance, and grades.
